

95% Lean

What is Lean?

Certain cuts of ground beef are considered lean, turkey bacon is advertised as lean. Get suckered into buying an Ab-Lounger and you may be promised a leaner stomach.

Webster's defines lean as, "having little or no fat". So what does lean mean for us? Exactly that, trim the fat, streamline our operations, and increase efficiency. When we work lean, everything is easier. The job goes smoother, your day goes better, we're all more organized and we're happier. Jamar excels and we get more work. More work for you means more money in your wallet, which means you can buy the lean burger instead of the cheap stuff!

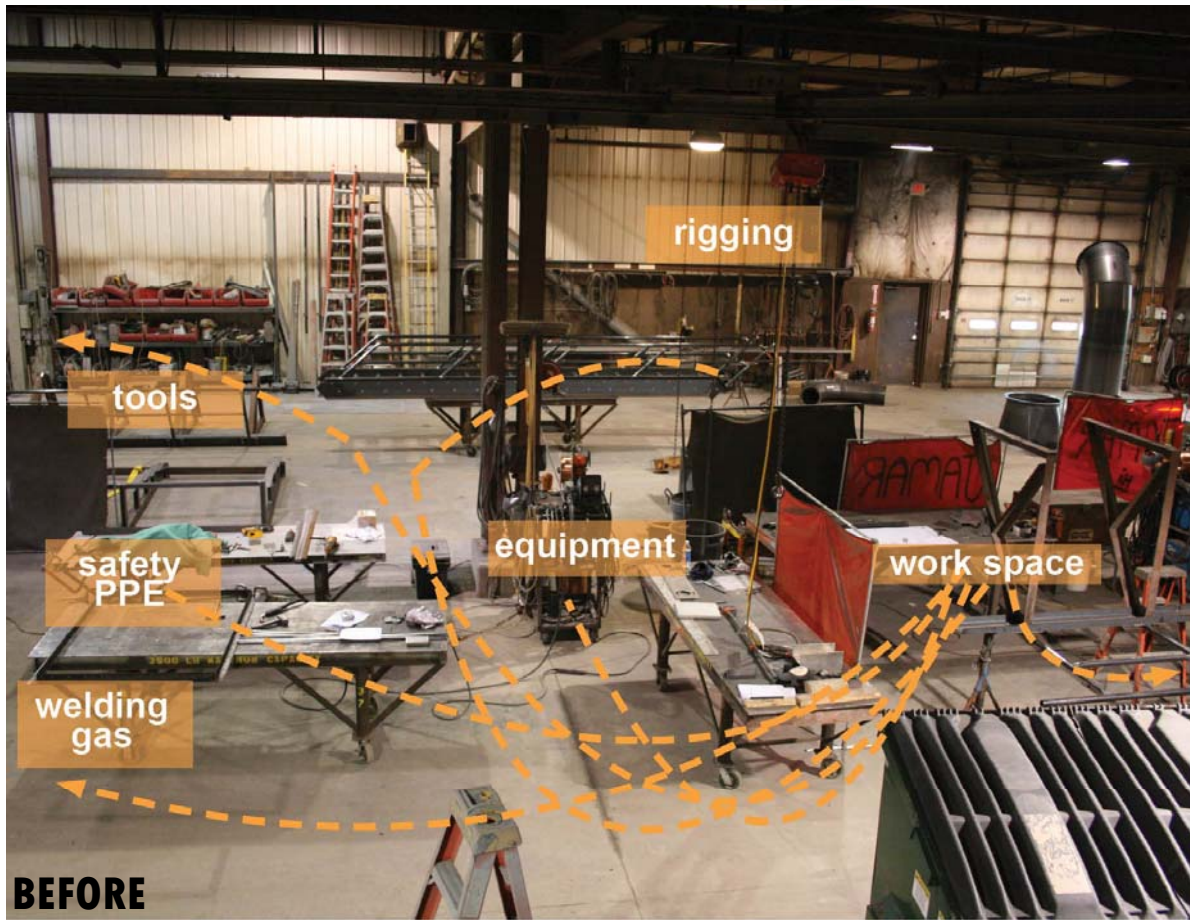

Our Company goal is 6/min. hour productivity improvement. **What have you done to affect that number?**

JAMAR'S LEAN PURPOSE:

Increase Customer Value Through:

- Empowering Our People
- Eliminating Waste
- Enhancing Productivity

The Jamar Company is an Equal Opportunity Employer/Contractor

BEFORE

95 steps taken repetitively is 95 steps wasted repeatedly!

The welding shop recently reorganized a workspace to move tools and equipment used repeatedly into a simple and well organized shadow board. Now tools and equipment are within arms reach and it's easier to stay on track.

Congratulations to the welding team for showing us all how to save steps!

AFTER

What can you do to save 95 steps today?

SOLID PARTNERS. SOLID SOLUTIONS. SOLID SERVICE.
