

# LEAN ON ME!

Pictured at right are the most recent graduates from the 80-hr. LEAN training class.

Congratulations to all on completing the course!

*Lean On Me* class members worked on the three 5S projects listed here as part of their training, having only two days to complete the majority of their project. Each group made huge productivity gains using the principles they learned in class.

Our Company goal is 6/min. hour productivity improvement. **What have you done to affect that number?**
